

1. Introduction

Foot Locker Europe B.V. (hereinafter called “Foot Locker Europe” or “FLE” or “we”), a subsidiary of Foot Locker, Inc., is in charge of Foot Locker’s operations across Europe. Foot Locker Europe values its vendors and suppliers and continuously tries to improve its supply chain to minimize the time and cost to move its merchandise from factory to store and to our direct consumer.

In an effort to streamline this process, Foot Locker Europe has developed over the years a Vendor Standards Manual (the "Manual"), which summarizes its supply chain process and the packaging and labeling requirements that our suppliers have to follow. This program is designed to monitor fulfillment of Purchase Order commitments, identify variances, and communicate compliance. We will work with you to help eliminate root cause of variances, resulting in a benefit to both parties. This will involve site visits between our facilities to understand fully the impact of our guidelines.

The attached document contains the 2022 version of the Manual. The highlights of the changes compared to the previous issue of the Manual, are as follows:

- Section 2 - Purchase Orders - General Terms and Condition to Purchase
- Section 6 - Pallet stacking
- Section 7 - contact details
- Section 8 - Invoicing

This revised Manual replaces all current Manuals for Europe.

All FLE and SDS orders received at the Foot Locker Europe Service Center or at the 3PL DC in the UK will be monitored for compliance and all deviations from these guidelines will be reported to you, so that you may change processes to achieve compliance.

Please review this Manual carefully and do not hesitate to contact us should you have any questions.
